

[Home](#) > Living Learning Community Proposal

Based on increased demand for Living Learning Communities, a number of departments have approached us about creating new communities. A detailed proposal to form a new community is required for any community to be considered.

Living Learning Community proposals should contain the following:

- **Name of proposed community**
- **Academic department/office co-sponsoring program**
- **Academic department/office representative and contact information**
- **Description of community and three to five learning outcomes**
- **Courses/experiential opportunities offered to the LLC students**
- **What is the targeted student population (i.e., first-year, returning, mixed)**
- **Financial support department/office is able to contribute**

All inquiries regarding future proposals should be submitted via email to lyn.redington@uni.edu
